

Representative Body of the Church in Wales Guidance on Churchyard Safety Signage

Parishes often request guidance on appropriate wording for a sign at the entrance to a Churchyard to warn people of the dangers in the Churchyard.

Any such sign cannot absolutely prevent claims against the Church if accidents should occur but are a useful way of helping to warn people and manage risks.

A suggested bi-lingual wording for such a sign is attached as a pdf. file for use by Parishes.

Please note that the erection of signs may require a faculty; please contact your local DAC secretary.
