

## Do you have experience or skills that you would like the Diocese to know about?

The Church is a family and in families people help each other out. They give each other advice. They use the combined skills of everyone to deal with issues that arise. Now most clergy and Churchwardens know a bit about their fellow worshippers. They know who they are, what they do for a living and something about the skills or gifts which they possess.

But the Church is a bigger family than just your Parish and the Bishop can't possibly know a whole lot about you, your gifts or your skills. We would really like to know what you might be prepared to offer to help the Diocesan Family.

Will you consider using this form to let us know about your gifts and skills that might be of use to that wider family? Please be assured that:

- You *don't* have to fill in this form to be on the Electoral Roll - it is entirely up to you whether you do or not.
- If you *do* decide to fill in the form, the information will be stored for the future. You may not be asked to do anything immediately, but if the right task comes along you could then be asked to help.
- The details you supply will be used only for the purposes above and none other. They will not be passed on to anyone.
