OUR ROLE

The principal role of the Representative Body of the Church in Wales is to hold and carefully manage its financial and property assets so that the work of the church as carried out through its Archbishop, Bishops, Clergy and Lay People can flourish.

HIGHLIGHTS OF 2018

During 2018 the Representative Body's financial resources and professional expertise provided support within important areas of the Church's work.

Evangelism Fund

This exciting project is intended to support the Church's evangelism and growth agenda, and to encourage creative and ambitious thinking across the province. This funding has been allocated in addition to the regular Block Grant funding made to dioceses annually, funding which was increased by 5% in 2017.

Online Faculty System

During 2018 the Representative Body successfully introduced a new system to enable application for faculties online. This system allows requests to make changes to church buildings to be submitted via a specific website where consultees are also able to view and comment on the proposals. The system means there is reduced paperwork for all concerned and provides a convenient way of viewing information regarding proposals for change. The online faculty system also links to a wider database of information on church buildings, Church Heritage Cymru, which can be accessed via www.churchheritagecymru.org.uk.

St Padarn's Institute

A strong increase in numbers of students studying at all levels is very positive news and testament to both the standard and range of training offered by St Padarn's, as well as the flexibility of training provision. Also, in March 2018, after a period of consultation, the Representative Body agreed that the administrative and residential training accommodation for St Padarn's should remain based at the former St Michael's site in Llandaff until at least 2029.

Safeguarding Policy

In November 2018 the Representative Body approved a series of amendments to the Church in Wales' Safeguarding Policy. The Policy is under continued review by the People Committee and professional safeguarding staff to ensure it is compliant with statutory legislation and guidance, both of which regularly change. This robust Policy and its clear articulation of procedures which reflect good practice gives a clear demonstration of the importance the Church in Wales continues to place on being a Safe Church.

New Accounting Software

The complex task of managing and administering the financial activities at the provincial office became more streamlined, secure and efficient in 2018 with the launch of a new financial software package, Xledger. The new system provides real time information on the finances of the Representative Body, and focuses more strongly on the overall financial controls, at a time where fraudulent activity in all areas of the financial sector is high. The new system has led to a number of efficiencies in terms of staff time which has allowed other areas of financially related work to be reallocated to staff in the Finance Department.

Closed Churches Officers

Redundant church buildings can be difficult to deal with both in terms of the closure of a church causing distress locally and, as it can sometimes be difficult to fund alternative uses, the liability they present to the Representative Body. In 2018 the Representative Body appointed two members of staff whose role is to manage the redundant churches across the province. These officers ensure the buildings are safe and secure, working with parishes to ensure any remaining contents are properly redistributed or sold and also with third parties to find appropriate future uses for the buildings. These officers will help to find as positive an outcome as possible from the closure of a church and the local sadness this will inevitably cause.

General Data Protection Regulation (GDPR)

In May 2018 the GDPR came into effect which made significant changes to data protection legislation. These changes had implications for how the various branches of the Church in Wales (including the Representative Body, the six dioceses, parishes and bishops' offices) collect, hold and administer data. The repercussions for breaching the regulations are significant and, recognising the financial and reputational risks associated with this, the Representative Body arranged detailed legal advice to explore how the legislation would affect the Church in Wales. Specialised training was arranged for provincial and diocesan staff as well as senior clergy and bishops' office staff and guidance was prepared for parishes. Continued care and vigilance around the handling and administration of people's data remains paramount and any concerns or questions should be referred to the Legal Department at the Provincial Office. Similarly, any data breaches must be reported immediately to the Head of Legal Services so that the Information Commissioner's Office can be notified within the statutory timeframes.

Top Row:

Bottom row:

Pioneer ministry team, Sanctuary, from Bangor Diocese, at Welshpool Cattle Market.

Her Royal Highness Sophie Rhys-Jones, The Countess of Wessex opening Teilo's Community Cwtch in Swansea.

CHAIR'S INTRODUCTION

Last year, the Representative Body was pleased to be able to announce the launch of the Church in Wales Evangelism Fund: £10 million of additional funds designated specifically to support big, transformative diocesan projects linked to evangelism and church growth. Since then, a committee has been appointed

to oversee the scheme, an application process has been put in place and the first applications have been received from dioceses. We are excited to be able to provide tangible direct support for the priorities set for the Church in Wales by the Governing Body in April 2018, and it would seem that this step has helped to catalyse new and ambitious thinking across the province.

But we are also mindful that, at a day-to-day level, our church life is sustained by small, less dramatic but still important interventions, the "little things" about which St David talked. At a local level we rely upon an army of committed volunteers to care for our buildings and churchyards, to maintain services and to undertake all kinds of pastoral work within the community. So too, at the Representative Body, we must ensure that we provide support, alongside the diocesan offices, for the everyday aspects of church life.

For this reason we have included in this year's Highlights section examples of our work at a provincial level that directly support the local church. Issues such as data protection and the smooth operation of the faculty system may appear to be administrative and undramatic, but they remain important and can represent a real headache for our volunteers on the ground. In such cases the provision of reliable, expert and accessible guidance – and new online processes – can be a Godsend.

The Representative Body is called to support the work of the whole Church in Wales, and in doing so we remain as committed to the crucial "little things" as to the new, big and exciting.

My second message this year relates to the question of financial sustainability. The Representative Body relies completely on its investment returns for its ability to support the wider Church in Wales. Since 2012, we have planned our expenditure against the level of total return (income and capital growth) we achieve. This is helpful during a period of strong investment growth, because on a traditional income/expenditure model

we are currently clearly overcommitted (to the tune of around £2 million) each year. However, set against the significant capital gains we have been able to make in recent years, these annual deficits have been considered manageable.

In 2018 we faced the reality of a true loss: losses on investments totalled £26 million, whilst at the same our expenditure exceeded income by some £2 million, before the further allocation of £10 million to the Evangelism Fund. There was no capital growth to mask the annual deficit. And, our advisers forecast, we are likely to be entering a period of much lower investment returns than we have enjoyed in recent years.

This is the context in which we must take decisions about expenditure, which are always made in consultation with the bishops and the diocesan boards of finance. As the chart on page 7 demonstrates, all of our assets are currently being used in support of the work of the Church. Any scenario in which the value of the Representative Body's investment fund falls undermines our ability to maintain this level of support alongside our other long-term commitments, such as the Clergy Pension Scheme.

It is our task as trustees to ensure that the level of support we provide the Church in Wales at this key moment – both in terms of the big, exciting and new; and of the everyday, small but vital – is maintained at the highest sustainable level.

James Turner

Chair of the Representative Body

OBJECTIVES AND ACTIVITIES

Public Benefit Statement

When planning its activities for the year, the Representative Body has taken into account the Charity Commission's guidance on public benefit and specific guidance on charities for the advancement of religion. The Representative Body provides significant financial support for the activities of the Church in Wales which is present in all communities throughout Wales. As such, the Representative Body's assets (which include most church buildings and church halls) are available to the whole community. Regular worship, marriages, funerals, baptisms, pastoral care, and outreach both at home and overseas are just some examples.

Key Objectives

The Representative Body's key objectives are:

- To manage its investments so as:
 - to meet the past service liability of the Clergy Pension Scheme;
 - to provide the maximum sustainable level of support for the work of bishops, dioceses, parishes and cathedrals.
- To manage the ecclesiastical and secular property vested in it for the uses and purposes of the Church in Wales.
- To oversee the work of St Padarn's Institute including the management of its staff, and (with the Bench of Bishops) the educational provision of the Institute.
- To employ specialist staff to advise the Bishops in connection with their respective portfolios of activity.
- To provide an efficient and professional administrative service across a wide range of functions including:
 - payment of serving clergy and pensioners;
 - management of trusts and other funds held provincially;
 - organisation of provincial meetings of the Representative Body, Governing Body, Bench of Bishops and their committees;
 - provision of guidance for the wider Church on a range of issues including safeguarding, ICT, property management and human resources;
 - maintenance of databases and management information.

On Going Objectives

- Maintaining Diocesan Support To maintain financial support for dioceses through the Block Grant and other provisions.
- Financial Stability To ensure financial stability with regard to the clergy and staff pension schemes.
- Fund Performance To make investment returns that exceed agreed benchmarks.
- 2020 Vision To support the work related to 2020 Vision by working closely with the Governing Body's Standing Committee and dioceses.
- Safeguarding To continue to strengthen the Church's capacity in safeguarding as we seek to be a Safe Church.

Additional Objectives for 2018

- Funding for Evangelism and Church Growth – To establish an Evangelism Fund with appropriate governance and financial arrangements so that a grant application procedure with guidance for dioceses can be put in place and launched.
- Clergy Remuneration Review To undertake a review of the clergy remuneration package in consultation with stakeholders.
- Site for St Padarn's Institute Review the long-term arrangements for providing accommodation for St Padarn's.
- Data Protection To ensure that appropriate policies and protocols are put in place to ensure that data management on behalf of the Church complies with the requirements of the GDPR.

Additional Objectives for 2019

- 2019 Actuarial Valuation of the Clergy Pension Scheme
- Clergy Remuneration Review
- IICSA Enquiry
- Review of Investment Strategy
- Funding implications of the Cathedrals Review
- Introduction of a new Church in Wales website

ACHIEVEMENT AND PERFORMANCE

Uncertainty in both the stock market and the current economic outlook have resulted in net losses on investments for the Representative Body in 2018 of £26 million.

Overall Financial Position

The results for the year are shown in the Statement of Financial Activities on page 28.

The total net movement in funds for 2018 was a negative £11 million. This was primarily due to net losses on investments of £26 million, which compares to the net investment gains in 2017 of £51 million. After considering other recognised gains and losses, the total funds of the Representative Body at 31 December 2018 reduced from £720 million to £710 million.

The net losses on investments was due mainly to unrealised losses on the stock exchange investments as a result of the economic uncertainty at the year end. Further details on the investment performance are given on page 12.

General Funds

Over 95% of the Representative Body's income is generated through its investments. During 2018, although the Representative Body's investment income remained static at £19.7 million, expenditure increased by £0.6 million, resulting in net expenditure (before investment gains) of £2.6 million.

Net unrealised losses on investments, coupled with the £10 million transfer to designated funds in respect of the Evangelism Fund resulted in an overall decrease in General Funds of £26 million.

Total Assets of the Representative Body

Although it might appear from the Balance Sheet on page 29 that the Representative Body is a wealthy charity, it is of vital importance that church members understand the nature of the Representative Body's total funds.

The chart on Page 7 explains how the Representative Body's assets are structured.

The total assets of the Representative Body of £899 million include £268 million of non-investment properties, made up of parsonages, churches and church halls. These are not income-generating assets and reflect the working plant of the Church.

This leaves the investment portfolio of £631 million of which 30% (£181 million) is specifically earmarked for the Clergy Pension Scheme. (Further details on the Clergy Pension Scheme are shown on pages 8 and 41 of this report.)

The remaining £450 million is invested in stock exchange securities and investment property on a total returns basis to generate the income and capital returns required to 'run' the Representative Body. The Representative Body currently aims to achieve a 6.5% total return, although this is unlikely to be sustainable in the future.

The income generated by the investments of around £20 million per annum is used to fund the Block Grant to dioceses, clergy training through St Padarn's Institute, the bishops and the provincial office, and with current expenditure levels of around £22 million, the Representative Body is running a £2 million deficit per annum.

As can be seen on page 45, the Representative Body's expenditure has for many years exceeded its income, but this is offset by the capital gains.

A decision to erode the capital base of the Representative Body would reduce its income and ability to fund the whole Church.

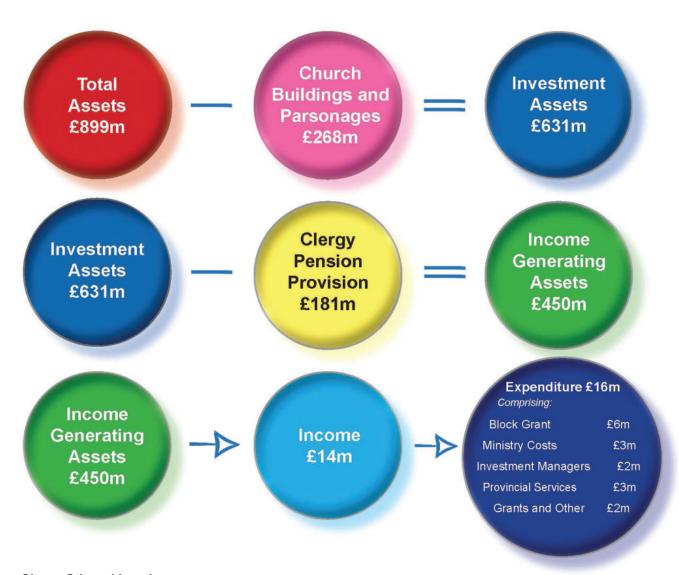

Supporting Ministry

Grants to Dioceses

The Representative Body continues to provide each diocese with a Block Grant to help with costs such as stipends, clergy pensions (current service contributions) and certain other categories of expenditure, so enabling provincial funding to be used more flexibly by the dioceses. In 2018 the total Block Grant was set at £6.2m recognising that from 1 January 2018 the dioceses would no longer contribute towards the cost of St Padarn's Institute. The Representative Body has agreed to maintain it at this level until 2021.

In addition, Bishops' costs (including their office costs) are met directly by the Representative Body.

Overall the Representative Body still meets over 30% of the total expenditure of the Church.

Clergy Stipend Levels

Clergy stipend levels are agreed each year by the Representative Body after consultation with the Bench of Bishops and the dioceses. From 1 January 2019 clergy stipend levels (incorporating an increase of 2.4% on 2018 levels) are:

	2019 Stipend Level £ p.a	% of Incumbent's Stipend
Assistant Curate, Cathedral Chaplain	21,115	85
Incumbent, Vicar in Rectorial Benefice*	24,841	100
Incumbent of Rectorial Benefice*	26,083	105
Residentiary Canon	28,567	115
Archdeacon	38,007	153
Dean	38,504	155
Assistant Bishop	42,230	170
Diocesan Bishop	45,956	185
Archbishop	49,682	200

^{*}Incumbents are also entitled to retain fees for conducting weddings and funerals.

Clergy Pension Scheme

The Clergy Pension Scheme is a non-contributory final salary scheme funded by the Representative Body and the dioceses and is a significant benefit for the clergy.

An incumbent with 40 years' uninterrupted service, retiring in 2018 will receive a lump sum of up to £36,389 and an annual pension of £14,555. On the death of a cleric, a qualifying surviving spouse or civil partner receives 60% of the cleric's pension, which in 2018 is £8,733 for full service.

The Clergy Pension Provision forms part of the overall

investments of the Representative Body and the longterm challenge is to ensure that pension liabilities are held as a stable proportion of the Representative Body's total assets.

The Clergy Pension Provision is shown in note 21 on page 41. The principal expenditure is payment of pension benefits and the income is made up of contributions from the dioceses for current service (38.8%) together with a proportion of the income and net investment gains (30.9%) of the Representative Body.

The membership of the Clergy Pension Scheme including the movements during the year are shown below:

Clergy Pension Scheme Membership						
	Active	Deferred	Pensioners	Total		
Membership at 1 January 2018	419	238	835	1,492		
New entrants	26	(3)	5	28		
Deferreds rejoined	4	(4)	-	-		
Leavers with deferred benefits	(16)	16	-	-		
Leavers with no liability	(1)	-	-	(1)		
Transfer out	-	(3)	-	(3)		
Retirements	(18)	(13)	31	-		
Deaths	-	(1)	(39)	(40)		
New surviving spouses or civil partners	-	-	11	11		
Membership at 31 December 2018	414	230	843	1,487		

The Clergy Pension Scheme is reviewed every three years and the results of the previous four triennial reviews are shown below. The next actuarial valuation is due to take place at 31 December 2019.

Clergy Pension Scheme Funding				
	2016	2013	2010	2007
Market Value of the Representative Body's General Funds	£607m	£512m	£452m	£483m
Value of Past Service Liability	£187.8m	£158.9m	£141.9m	£126.8m
Liability as a proportion of General Fund	30.9%	31.1%	31.4%	26.2%
Current Service Employer's contribution (paid by dioceses)	38.8%	32.7%	27.2%	26.3%

Clergy Retirement Housing Loan Schemes

Current Clergy Housing Loan Scheme (Available to qualifying clerics born before 31 December 1960).

The current scheme, introduced with effect from 1 January 2006 is available to clergy within three years of the normal retirement age to assist with the purchase of a retirement property, and provides the following loans:

- An interest bearing equity-linked loan of up to £162,651 (as at 1 January 2019), reviewed in line with the quarterly change in the Nationwide Welsh Average House Price Index (subject to restrictions based on an applicant's income);
- An interest-free loan equivalent to the retirement lump sum earned to date.

At 31 December 2018 the numbers and amounts of loans outstanding were:

	Number	Amounts
Interest Bearing Equity Loans	53	£5,489,132
Interest Bearing Loans*	3	£44,994
Advance of lump sum	-	-

^{*} rolled over from the original Clergy Housing Loan Scheme

Original Clergy Housing Loan Scheme

The original Clergy Housing Loan Scheme was closed to clergy on 31 December 2005. Under that scheme, there were two types of loan available for clergy:

- An interest bearing loan of up to £15,000;
- An interest-free equity-linked loan up to a maximum of £30,000.

At 31 December 2018 the numbers and amounts of loans outstanding were:

	Number	Amounts
Interest Bearing Loans	25	£360,499
Equity Loans*	73	£2,124,691

Clergy Car Loan Scheme

The Representative Body's Clergy Car Loan Scheme was closed to new members from 31 March 2016. Existing loans will continue to be held by the Representative Body, and clergy with loans will not be affected. As at 31 December 2018, there were 14 existing loans outstanding totalling £13,000.

Management of Property

Emergency Aid

Sometimes church property is found to be in a critical condition that could cause harm to people. The Representative Body seeks to help find solutions to such cases by providing advice but also financial support through its Emergency Aid Fund. This fund is supported by each Diocese and uses the grant money generously given by the All Churches Trust. The fund is limited but can ensure that timely action is taken to avert a crisis developing. The established quinquennial inspection scheme across Dioceses should identify potential problems in good time to enable solutions to be found.

Support for managing church buildings

A new facility has been launched to help local churches with organising maintenance and repair work. Maintenance Booker has been developed by the National Churches Trust with support from the Representative Body to provide an on line facility for obtaining quotations for basic building work and other services and directly booking vetted contractors. In particular, the system included a facility for booking asbestos surveys and management plans. See www.maintenancebooker.org.uk

Churchyards and Burial Grounds

A survey of parishes will be being undertaken in 2019 to assess the general condition of churchyards across the Province. This is to help us think about how new support to care for these places can be established especially where they are closed for new burials and have a limited income as a result.

Redundant Churches

The Representative Body has reorganised its staffing to better manage closed churches and seek out new futures for them. A dedicated manager at the provincial office is supported by two closed church inspectors who are home-based but mobile across Wales. This structure should enable the Representative Body to better manage risks at closed churches and assist parishes during the process of closure.

At the same time, consideration is underway over how the process of church closure should work and how proceeds should be distributed. This will be further developed in 2019.

Online Faculty System

This system was launched in five dioceses in 2018 and has proved successful and effective at helping parishes to submit faculty applications and improve the transparency

of the process. At the same time, the system incorporates new arrangements for considering small scale works (called List A and B items of work), that enable quicker approval of routine and straightforward tasks.

Flexible Working on Property Matters

Dioceses are each working hard to develop new ways to support the management of property across the diocese. Traditionally, parsonage and church property matters have been managed quite separately but increasingly diocesan property teams are being developed (formally or informally) to link up expertise and share challenges and solutions. This is often linked to a combined Property Board in each diocese covering the work of both the Diocesan Parsonage Board and the Churches and Pastoral Committee.

Administration and other services provided from the Provincial Office

During 2018 the Representative Body, via the staff at the Provincial Office in Cardiff, continued to provide a wide range of administrative and other services on behalf of the Church. For example, the Representative Body is the managing and custodian trustee for over 2,500 funds held on trust and on behalf of beneficiaries. The aggregate value of these special trusts at 31 December 2018 was £49.5 million and was invested in stock exchange securities via the Church in Wales Common Investment Fund. The Representative Body also administers the clergy payroll, with the total cost of stipends and national insurance paid through the payroll in 2018 amounting to £11.3 million.

Below are some other examples of the range of services provided by the Provincial Office:

- The Provincial ICT Department provides network, software and hardware support for the Provincial Office, St Padarn's Institute, Bishops' offices, diocesan offices and the Archdeacons.
- The Provincial Office's Communications
 Department provides print and design services for reports, liturgical material and marketing content across the Church, website design, maintenance and technical support for the provincial office, the dioceses, St Padarn's Institute and the parishes; and press and public relations services for the Provincial Office and the Bishops.
- The payment of Council Tax on parsonages, and the letting of properties in parishes (owned both by parishes and the Representative Body) are managed from the Provincial Office;

- Advice for parishes on compliance with secular legislation, such as safeguarding, disability discrimination and parochial trustees' liability (including the process for registration with the Charity Commission of those parishes with an income in excess of £100,000) is prepared and disseminated by provincial staff;
- Disclosure and Barring Service disclosures are managed and processed at the Provincial Office for all clergy, licensed lay ministers and volunteers identified by parishes as having contact with children and vulnerable adults;
- The Provincial Safeguarding Panel meets regularly to consider case work, and the Provincial Safeguarding Team provide timely advice and guidance responses to individuals including calls and emails, and referrals to social care.
- The Representative Body pays grants and bursaries to those training for ministry in the Church in Wales.

The number of posts of the Representative Body at 31 December 2018 (with 2017 in brackets) is as follows:

	Full Time	Pa	rt Time
	No.	No.	FTE
Provincial Office	43 (39)	5 (7)	3.7 (4.6)
Bishops' Secretaries	5 (5)	1 (2)	0.9 (1.5)
Diocesan Inspectors	6 (6)	- (-)	- (-)
Bishops' Portfolio Support	3 (3)	1 (2)	0.6 (1.2)
Safeguarding (1)	1 (1)	7 (8)	3.4 (4.1)
St Padarn's Institute (2)	20 (18)	11 (13)	4.5 (4.9)
Total	78 (72)	25 (32)	13.1 (16.3)

FTE - Full Time Equivalent

Salary levels were increased from 1 January 2019 by 2.4%, the same increase as that agreed for clergy. Salary levels are based on the requirements of the role and levels in other comparable organisations.

⁽¹⁾ Safeguarding includes 8 part time posts of which 5 were recharged to the dioceses.

⁽²⁾ In 2017 the St Padarn's Institute figures included 5 full time and 2 part time tutor posts which were recharged to the dioceses. These posts were fully funded by St Padarn's in 2018.

Top Row:

Parishioners at St Giles Church, Wrexham, creating a poppy display to commemorate the centenary of the end of WW1.

FINANCIAL REVIEW

The value of the stock exchange securities decreased during the year by 8%.

Investment Policy

The power to invest all monies held by the Representative Body in trust for the Church in Wales is set out in section 20 of Chapter III of the Constitution, which gives wide ranging authority for investment.

Investment Objectives

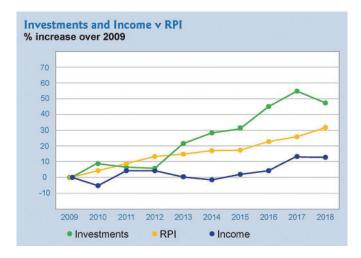

The objectives of the Representative Body's investment policy are to:

- achieve a balance between sustainable levels of income and capital growth;
- optimise total returns without undue risk;
- continue to meet the Representative Body's current to long-term liabilities and income commitments;
- operate within the constraints of the Church's Ethical Investment Policy Statement, as set out on page 14.

Diversification in a range of assets is essential to reducing risk, and therefore forms an important part of the investment strategy of the fund. The assets in which the fund is invested are regularly reviewed.

Investment Managers

Sarasin & Partners and Newton Investment Management each manage one half of the stock exchange investment fund, under a Global Multi-Asset mandate. Cluttons LLP manage both the investment properties and the property unit trusts.

Overall Fund Performance

During 2018 the total value of the Representative Body's total investments decreased by 4% to £631m as shown on the Balance Sheet on page 29.

The capital value of the fund is of particular significance in assessing the proportion of assets required to meet the Clergy Pension Scheme liabilities which were valued at £180.7m on 31 December 2018 (2017: £192.2m).

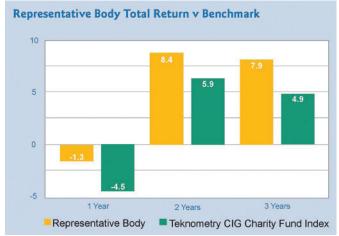

Total Return

The total return (both income and capital growth) from the Representative Body's fund during 2018 was minus 1.3%, outperforming the Teknometry comparator return of minus 4.5%. Over three and five years the annualised returns also outperformed the comparator as highlighted in the table below.

Comparator

The performance of the Representative Body's total investment fund, including the stock exchange investments and property investments is measured relative to the Teknometry CIG Charity Fund Universe Benchmark.

The property portfolio is measured against the IPD (Investment Property Databank) Monthly Index.

Stock Exchange Investments

The value of stock exchange securities decreased over the year from £548 million to £504 million at 31 December 2018, a decrease of 8%.

After two years of steady growth in asset prices, 2018 proved more of a challenge for investors, particularly in the last three months of the year.

Stock markets in particular suffered in 2018. Stocks had been a major beneficiary of the low interest rate and loose monetary policy environment since the global financial crisis. Companies have been able to borrow money cheaply to strengthen their balance sheets while also benefiting from a pick-up in demand as the global economy recovered.

In local-currency terms, the major regional indices ended 2018 conspicuously in the red. To the UK-based investor, Japan's stock market was the weakest of the main regions, its fourth-quarter return of -12.4% taking its full-year return to -7.6%. North American equities returned -11.5%, with only the marked strength of the US dollar versus sterling

salvaging a positive return (of +0.8%) over the year as a whole. Europe (excluding the UK) returned -10.9% over the quarter (-9.5% over 2018), the UK returned -10.2% (also - 9.5% over the year), the Asia-Pacific ex Japan region delivered a return of -8.1% (-6.8%), and emerging markets returned -3.9%, for a 12-month return of -7.6%.

US tax cuts had provided an initial boost for investors heading into 2018, and US GDP growth accelerated to 4.2% on an annualised quarterly basis in Q2.

However, the final quarter of 2018 saw a large drop in the value of global equities as ongoing anxieties about the state of global trade and future economic growth hit all markets. US equities led the decline with negative returns of double digits as concerns about the ongoing trade dispute with China weighed heavily alongside slower earning growth.

Elsewhere in the political sphere, there were significant sources of apprehension for investors. Italy's disagreement with the European Commission over its budget, and the great uncertainty surrounding the nature of the UK's departure from the European Union (EU).

Asset allocation ranges and the allocation as at 31 December 2018 are shown below:

Asset Allocation Range						
Asset class	Allocation at 31 December 2018					
UK Equities	15-40%	27%				
Overseas Equities	20-70%	48%				
Fixed Interest	2-25%	13%				
Alternatives	0-10%	7%				
Cash	0-25%	5%				

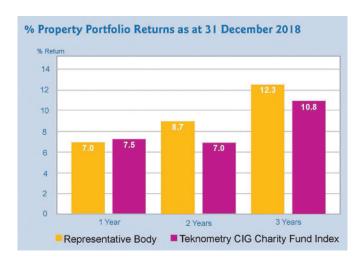

Investment Property

The commercial property portfolio marginally underperformed the IPD Monthly Index over the 12-month period to 31 December 2018 but outperformed the Index over the 3 and 5 year periods as shown in the table below.

The strongest sector performance came from industrials with industrial sector investments returning 23.6% against the IPD Monthly sector benchmark return of 20.3%.

The value of the Investment Property portfolio decreased marginally over the year from £74.5m to £73.4m, due to the realisation of part of one of the Property Unit Trust holdings, which generated a profit of £1.3m.

During 2018 the Representative Body agreed to realign the investment assets back to the agreed policy of holding 15% of the investment portfolio in investment property, which has meant that £20 million will be transferred from stock exchange investments into property in 2019, with an additional £8 million already earmarked for investment in property.

Ethical Investment Policy Statement

The Church in Wales has had an Ethical Investment Policy for many years. Informed by the work of Churches Ethical Investment Group and supported by the Representative Body's Investment Committee, the current policy statement was adopted by the Governing Body of the Church in Wales in April 2016.

As a Christian Church, we are tasked to co-operate with God's active presence in the world and with proclaiming the values of the kingdom of God. This means that the Church has a particular interest in promoting all that furthers justice and peace, that enables full human flourishing, that honours creation and that builds creative human communities.

The Church in Wales wishes to have an investment policy that is ethical and consistent with the furtherance of our aims and objectives. We believe that it is entirely appropriate and possible to operate such a policy alongside the requirement to achieve the best returns from our investments, and to use our investments as an ethical means of contributing to the cost of ministry and mission in the Province.

Our aim is to invest in successful companies that are committed to developing their business in the interests of their shareholders, customers, local communities and employees by operating:

- Responsible employment practices;
- Conscientious corporate governance;
- Policies and practices which demonstrate a proper regard for the environment and for the well-being of the created order;
- Policies sensitive to the human rights and wellbeing of individuals and communities in which they operate;
- Fair trading practices.

In its policy for investment, the Church in Wales will use its best endeavours not to be associated with companies whose products or policies conflict with these aims or to invest in companies which:

- Are responsible for the wanton despoliation of the environment;
- Are responsible for anything that threatens peace, security and communal well-being;
- Exploit, demean, corrupt or degrade humankind, especially the poor or the financially vulnerable;
- Are indifferent to the well-being of animals.

We recognise the complexities surrounding the activities of companies in which we can invest, and reserve the right to make investment decisions on a case by case basis. We will endeavour to engage with companies which are in actual or potential breach of this policy or where concerns exist over governance and social responsibility issues before considering disinvestment.

It is the policy of the Church in Wales not normally or knowingly to invest in any company:

- which derives more than 20% of turnover from a primary focus on gambling, or the production or sale of alcoholic beverages or tobacco products;
- which derives more than 5% of turnover from pornography, predatory lending activities or the proliferation of armaments beyond areas of legitimate defence and international peacekeeping;
- which derives more than 10% of turnover from the extraction of thermal coal or the production of oil from tar sands.

The Church in Wales wishes to be a well informed and responsible investor, and to this end is represented on the Church Investors Group, which is a means of accessing research, obtaining reliable information, sharing best practice with other member organisations, and exercising combined shareholder influence.

A valuable relationship exists between the Investment Committee and the Church in Wales Ethical Investment Group to which the Committee refers problematic cases, and from which it receives an annual report.

Risk Management Policy

The Representative Body has established an extensive risk register. The register is reviewed and updated regularly by Senior Management and scrutinised by the Audit and Risk Committee and the Representative Body annually.

The 2018 risk register identifies the major risks to which the organisation is exposed and the scope of such risks. The register then identifies the controls and procedures which have been established to manage and mitigate those risks, from which there are defined action points, strategies and timescales to mitigate the risk further.

The risk register has identified three major areas of risk. These areas and the associated mitigation strategies are:

- Falling congregation numbers and age profile leading to an accelerating decline in church attendance
- The Representative Body seeks to maintain the highest sustainable level of financial support for dioceses principally via the block grant and reviewed levels in 2017;
- Creation of mission / ministry areas in all dioceses will pool ministry experience and help secure the viability of the parish system;
- The annual Joint Finance Meeting enables the regular review of parish, diocesan and provincial finances by the Bench, the Representative Body trustees and diocesan Secretaries:
- The Annual Finance Return provides detailed information for dioceses and the province on the financial situation of parishes;
- The Annual Membership Return provides an analysis of age profile and attendance patterns;

2. Cyber Security Breach

- Password management protocols have improved and supercede recommended IT Security Audit Standards;
- Strict internet controls are in place on the RB network which routinely block known viral carrying websites;
- All security updates are applied automatically to servers, operating systems and individual devices at point of release;
- Email cloning is becoming increasingly sophisticated and cannot be effectively policed through technical means only. Advice has been issued by the Head of Finance requiring additional confirmation steps for all emailed requests for the transfer of funds.
- 3. Poor total returns on the Representative Body's investments as a result of economic events and uncertainty in the market
- Investment performance and strategy is reviewed quarterly;
- A total return approach to expenditure has been developed, which sets spending at a level intended to provide vital funding for the Church in the short term whilst preserving the investment base;
- The diversified investment policy ensures that income is not concentrated on a small number of investments;
- The stock exchange portfolio is managed by two separate managers;

- The investment property portfolio includes a mix of property from different sectors;
- Long term downturn would have to be permanent to be a threat to the Clergy Pension Scheme;
- There is a triennial review of whether the Clergy Pension Scheme should be separated from the Representative Body's main fund;
- The performance of the investment managers is measured relative to a respected benchmark.

Reserves Policy

At 31 December 2018 the total funds of the Representative Body amounted to £710 million (2017: £720 million).

General Funds

The amount of General Funds held by the Representative Body at 31 December 2018 totalled £411m (2017: £437m).

The total return expenditure policy is based on the amount of General Funds held by the Representative Body. The policy is to set spending at a level intended to provide vital funding for the Church in the short term whilst preserving the investment base to provide sustainable increases in annual expenditure into the future.

Designated Funds

The Trustees have the power to designate general funds to be retained for an agreed purpose where this is considered to be prudent.

At 31 December 2018 Designated Funds amounted to £299m (2017: £284m). Details of the Designated Funds are set out on page 42. The most significant fund is the Revaluation Reserve, with a balance of £212m, and represents the difference between the market values assigned to non-investment property (including parsonages, churches, church halls and sundry property) and the underlying cost. As such, the Revaluation Reserve can only be realised by the disposal of the non-investment property held by the Representative Body for the day to day work of the Church.

All designated funds are reviewed annually and returned to general funds in the event that the purpose of their designation can no longer be justified.

Restricted Funds

At 31 December 2018 there were no Restricted Funds (2017: nil) held by the Representative Body.

FUTURE PLANS

The Representative Body has kept under review a number of strategic issues which may in time hold significant implications for the Church in Wales.

Short to medium term issues

Support for the dioceses

The Representative Body continues to provide support for the wider Church in Wales in a broad range of ways. Most visibly, it has committed to maintaining the level of Block Grant funding to dioceses (some £6.2 million) up to and including 2021. In doing so, the Representative Body is operating at a planned deficit and the drawdown of funds to support this strategy needs to be carefully managed. The Representative Body also provides professional support to the Church in a number of key areas.

2020 Vision

The Representative Body is playing a full part in supporting the *2020 Vision* process, not least in the provision of £3.5 million over three years (2015-17) for the *2020 Vision* Transformation Fund. However, the process of rebuilding the Church for 2020 and beyond poses more varied challenges than funding. In particular, changing parish structures and patterns of ministry are raising new questions about governance, financial reporting, use of property and funds, the provision of housing and other support for ministry. The Representative Body will have a key role in helping the Church to consider and resolve these questions.

Clergy Remuneration

The lion's share of Representative Body's expenditure is linked directly or indirectly (for example, through the Block Grant) with the costs of ministry. It is clearly the will of the Church that its clergy should be treated fairly and equitably, and the clergy remuneration package - stipend; pension scheme; housing; council tax and utility bills; income from occasional offices and trusts – is structured to provide the maximum level of support to enable clergy to focus on ministry and mission. However, this package is also based on traditional patterns of ministry, lifestyle and family life, and may not necessarily reflect the needs of today's ministers. For this reason the Representative Body has commissioned a review of the clergy remuneration package with the intention that a balance be found between what is fair and equitable on one hand, and affordable and sustainable for the Church on the other.

Managing Property

Redundant Churches

Finding new futures for closed churches is never easy. For the most part, these are buildings built for a specific purpose and surrounded by graves. They are also often listed buildings of historic importance. Early thinking about future uses after closure is important and discussions with other community groups can lead to opportunities to lease these buildings with reserved worship use. This places the building in the hands of the community for community purposes but secures a place for ongoing worship too. These types of arrangement will be increasingly common but require careful negotiation and discussion with all concerned to arrive at mutually acceptable and workable solutions.

Funding

The biggest challenge facing any congregation in caring for its church building is funding. This starts with local fundraising and support but extends to seeking grants from major institutions including the lottery. The main source of funding for our historic churches has been the lottery fund now known as the National Lottery Heritage Fund. It is clear that whilst this fund is still keen to support places of worship, it will be for the community and cultural impact those churches can make that will secure funding. It is not there as a fund to simply repair the building; it is about how the repairs will enable vibrant and energised communities to flourish.

Digital Developments

The creation of the online faculty system has changed radically the way in which the faculty system operates. It is making the whole process simpler and more transparent. It is linked to Church heritage Cymru which is a database of facts and information about each church, see www.churchheritagecymru.org.uk. The potential of Church Heritage Cymru is vast but like every database it needs to be populated with accurate and relevant information. Finding people to undertake this work has proved challenging. We will be carefully thinking through the future of this system in the years ahead.

At the same time, the Representative Body is investigating the creation of an online inventory system to enable lists of the contents of churches to be properly recorded and retained. Knowing what we have

inside our churches is key to good stewardship, future planning and proper insurance.

The Online Faculty System will also be re-written and designed over the next year or so (now that we know it works well) to enable bilingual applications.

Supporting Ministry Areas

The development of ministry areas brings with it new challenges as churches look afresh at their assets and try to plan what is needed to meet future challenges. This involves considerable support to guide local churches in terms of what assets are available and the limitations on their use and development. Providing information to ministry areas will be a key priority going forward.

Safeguarding

In recent years the Representative Body and the dioceses of the Church in Wales have invested heavily in its safeguarding support. Ensuring that the Church provides a safe environment for all whom it is called to serve, particularly those who might be especially vulnerable, is a key part of our Christian witness. However, it is expected that significant additional support will be required in the near future to equip the Church to participate fully in the Independent Inquiry into Child Sexual Abuse. The investigation into the Church in Wales' safeguarding provision and cases arising from the Church's work will take place in 2019, and the Church in Wales is committed to provide the Inquiry with every assistance. For the Representative Body, this is likely to mean in practice the incurring of costs relating to legal representation, but also the dedication of significant staff time to research and provide documentation as required by the Inquiry. The earlier investment in the Church's safeguarding provision, including the Independent Review of Historic Cases, is expected to prove helpful in this regard.

Training for Ministry

St Padarn's Institute is the provider of training for ministry (for both lay and ordained) within the Church in Wales. St Padarn's is responsible to the Representative Body for staffing and budgetary matters and to the Bench of Bishops for matters of training strategy and ministerial development. During 2018 numbers of students in all areas of learning increased, a very positive sign for the future of ministry.

In 2018 the Representative Body took full financial responsibility for the operation of St Padarn's with an adjustment made to the Block Grant accordingly to constitute the dioceses' contribution to the provision of theological training.

Also in 2018, following a detailed exploration of a number of alternative options, the Representative Body agreed that St Padarn's remains based at the site of the former St Michael's College in Llandaff until at least 2029. While this site is the administrative centre of St Padarn's and the home for full-time residential students, the function of St Padarn's is by no means restricted to this site and increasing use is being made of dispersed and digital learning at locations across Wales.

The Representative Body will continue to work closely with the Principal of St Padarn's, the St Padarn's Council, dioceses and the Bench of Bishops to do its part in furthering the development of St Padarn's and its important role within the life of the Church in Wales.

Cathedrals Review

The independent review of the role, governance and resourcing of cathedrals in the Church in Wales, which has been commissioned by the Bench of Bishops, was presented to the Governing Body in April 2017. The Review's recommendations hold implications for funding and for the professional support provided to cathedrals. The Representative Body will need to work with all parties, including dioceses, to help implement the Review's vision for Welsh cathedrals as required by the Governing Body.

Church in Wales Centenary Celebrations

2020 marks the centenary of the disestablishment of the Church in Wales. The Standing Committee has begun the process of considering how this date should be marked, and the Representative Body is ready to assist with any practical support that might be required. Any celebratory event(s) will also need to be funded, and the Representative Body will need to be part of any discussions on that aspect of the event planning.

Long term issues

Pensions

The actuarial valuation of the Clergy Pension Scheme at 31 December 2016 confirmed that the Scheme is well funded and continues to represent a prudent proportion of the Representative Body's total assets. However, the costs to dioceses have continued to increase. The Representative Body will need to keep the Clergy Pension Scheme, including its funding and benefits, under active review. The next actuarial valuation of the Clergy Pension Scheme is due to take place as at 31 December 2019.

Property

Redundant Churches

Developing our partnership with the Friends of Friendless Churches is a key priority in the years ahead. This is both to preserve the excellent joint mechanism with Cadw to secure the vesting with the Friends of key heritage churches, but also to find ways of vesting other special places with them. Many of our small, rural churches are true 'thin places' where the gap between heaven and earth is thin, that to have them kept as quite places to visit, pray and reflect is a great outcome for them.

The Diocese of St Asaph has developed a network of Pilgrim Churches which work in a similar way and ensure closed churches remain within the Church family but not through the traditional structure of PCC/MAC. These churches are loved still by local people with occasional services but the Diocese and Representative Body take care of the financial and administrative aspects.

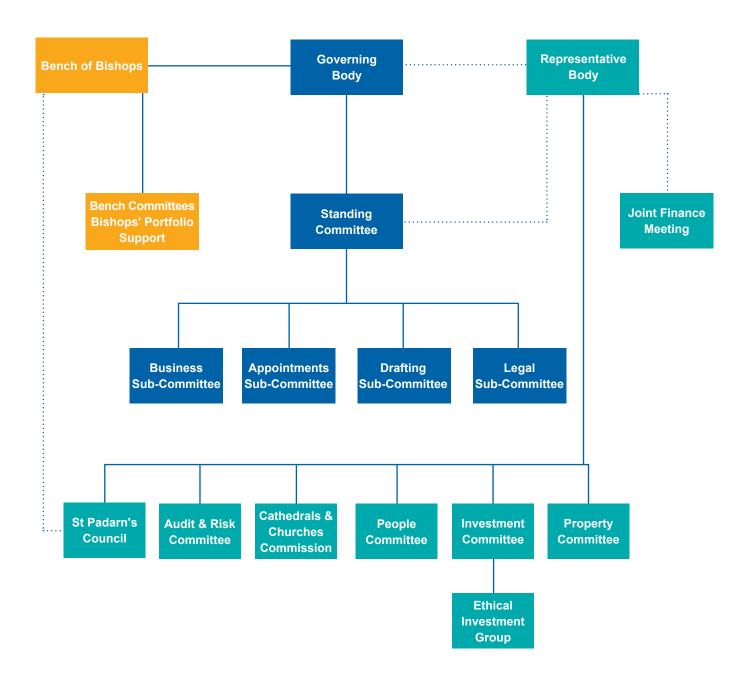

People

Looking after a church building is not easy especially if it is also a listed building of national heritage importance. Making sure we have enough people with the right skills to manage these building will be the biggest challenge in the long term. It is clear that providing support in terms of guidance and support officers is a key part of the solution but, equally, the need to bring people facing the same challenges together and share experience and resources will be paramount. If people are to commit to caring for their building, they will more readily do so if they are supported and do not feel alone.

Affordable Housing

Allowing surplus assets to be used for affordable housing development to address acute housing needs is a key priority for the Representative body. The benefits to communities and to the reputation and standing of the church is already clear from the various projects achieved to date. Working with our key partner Housing Justice Cymru is showing real dividends in making a difference to people's lives through the meeting of the most basic of human needs – a home.

THE PROVINCIAL STRUCTURE

GOVERNANCE AND MANAGEMENT

The Representative Body of the Church in Wales was created by a Charter of Incorporation on 24 April 1919 and is constituted to hold all property and investments vested in it in trust for the use and purposes of the Archbishop, Bishops, Clergy and Laity of the Church in Wales. These assets are held in order to maximise the support which can be given to the mission of the Church in parishes throughout the province.

The Representative Body comprises up to 26 members and meets three times a year. The membership and functions of the Representative Body are regulated by Chapter III of the Constitution of the Church in Wales.

Details of the trustees who served during the year and since the year end are set out on page 23. The relationship of the Representative Body to its committees and to the other provincial bodies of the Church in Wales is set out on page 19.

Membership Composition

Trustees are appointed for a three-year term of membership. The Representative Body's membership consists of:

- The Archbishop;
- The Chair of the Standing Committee of the Governing Body;
- The Chair of the Diocesan Board of Finance of each diocese;
- One cleric elected by the Diocesan Conference of each diocese;
- One lay person elected by the Diocesan Conference of each diocese;
- Up to four members nominated by the Bench of Bishops in consultation with the Standing Committee:
- Up to two members co-opted by the other members of the Representative Body.

Membership Eligibility

The following are eligible to be members of the Representative Body:

- Any cleric who holds an ecclesiastical office in the Church in Wales or a licence from a Welsh Diocesan Bishop who is not retired or has reached the age of 70;
- Any lay communicant over 18 and under 75 years of age who either:

- a. resides or has resided for a period of 12 months in a Church in Wales parish; or,
- b. whose name appears in the electoral roll in a Church in Wales parish and who does not belong to a religious body which itself is not in communion with the Church in Wales.

A lay communicant may be elected a member of the Representative Body only for the diocese in which he or she either resides, holds diocesan office or has his or her name on the electoral roll of a parish in such diocese. No full time employee of the Representative Body, a Diocesan Board of Finance or any other such provincial or diocesan body within the Church in Wales shall be eligible to be a member of the Representative Body or any committee or sub-committee.

Membership – Induction and Training

It is the policy of the Representative Body that its members should be provided with training appropriate to their duties both as charity trustees and as members of its committees. New members are given the opportunity to attend external training events for charity trustees, and all new members are also invited to the Provincial Office to meet staff and to learn more about the work of the Representative Body, the Governing Body and the Bench of Bishops.

In addition, members are offered training tailored to meet specific gaps in knowledge or experience, often linked to a member's work with the Representative Body's committees. In the past this training has proved to be particularly beneficial in the complex and specialised areas of investments and audit.

Committees

The Representative Body has six committees

– Investment, Property, People, Audit and Risk,
St Padarn's Council and the Cathedrals and Churches
Commission – each with specific terms of reference and
functions delegated by the Representative Body and
reviewed every three years.

Investment Committee

The Investment Committee determines the investment strategy for approval by the Representative Body (within the overall policy objectives of the Representative Body and with advice from their appointed advisers) and recommends for the Representative Body's approval all strategic decisions necessary to manage the investments of the Representative Body within this strategy.

Property Committee

The Property Committee has responsibility for policy relating to the Representative Body's non-investment property including churches, parsonages, burial grounds, glebe land, and bishops' residences and the management of those properties. Its duties are wideranging and include authorising the sale and purchase of properties; developing strategies for dealing with redundant church buildings and churchyards; administering trusts, legacies and bequests; and administering grants for the repair and improvement of properties.

People Committee

The People Committee is responsible for developing policies and procedures for clergy, staff and volunteers in line with good practice and the specific legislation that applies to each group. This includes advising the Representative Body on the level of clergy stipends and staff salaries and the terms and funding of the pension schemes for clergy and staff respectively. It has also been given responsibility for overseeing Safeguarding Policy.

Audit and Risk Committee

The Audit and Risk Committee works with the Representative Body's external auditors to ensure proper financial reporting practice and compliance with charity accounting requirements. It provides strategic advice on budgetary matters and considers long-term financial forecasts and has a role in monitoring the effectiveness of the internal audit function. It also has an important role in overseeing the risk management process and to consider the potential financial exposure to safeguarding matters.

St Padarn's Council

The St Padarn's Council oversees the work of the St Padarn's Institute, which brings together training for ministry and education for discipleship in the Church in Wales. In most areas of its work it reports to the Bench of Bishops, but it reports to the Representative Body on finance and staffing matters.

Cathedrals and Churches Commission

The role of the Cathedrals and Churches Commission is to provide expert advice to diocesan courts and advisory groups on applications for major works to cathedral and church buildings as part of the in-house procedure (or faculty procedure) established by the Church in Wales as a condition of the ecclesiastical exemption from local planning controls.

Conflicts of Interest

Representative Body members are likely to serve the Church in Wales in other ways and some, in particular clergy members, receive remuneration in these other roles. The Representative Body operates a conflicts of interest policy to ensure that members' other interests – either personal or on behalf of other organisations within the Church – do not exercise an inappropriate influence on the Representative Body's own decision making. A register of members' interests is maintained and updated regularly, and members are given the opportunity at the beginning of each meeting to declare any potential conflicts with items under consideration.

Fundraising

The Representative Body does not actively fundraise but donations are gratefully received. No complaints have been received in respect of fundraising.

Statement of Trustees' Responsibilities

The trustees are responsible for preparing the Trustees' Annual Report and the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

The law applicable to charities in England and Wales requires the trustees to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the charity and of the incoming resources and application of resources of the charity for that period.

In preparing these financial statements, the trustees are required to:

- select suitable accounting policies and then apply them consistently;
- observe the methods and principles in the Charities SORP;
- make judgments and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charity will continue in business.

The trustees are responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the charity and enable them to ensure that the financial statements comply with the Charities Act 2011, the Charity (Accounts and Reports) Regulations 2008 and the provisions of the trust deed. They are also responsible for safeguarding the assets of the charity and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The trustees are responsible for the maintenance and integrity of the charity and financial information included on the charity's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

By order of the Representative Body.

INDEPENDENT AUDITORS' REPORT

Independent Auditors' Report to the Trustees of the Representative Body of the Church in Wales Opinion

We have audited the financial statements of the Representative Body of the Church in Wales for the year ended 31 December 2018 which comprise the Statement of Financial Activities, the Balance Sheet, the Cash Flow Statement and notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland (United Kingdom Generally Accepted Accounting Practice).

In our opinion, the financial statements:

- give a true and fair view of the state of the charity's affairs as at 31 December 2018 and of the charity's net movement in funds for the year then ended;
- · have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Charities Act 2011.

Basis for opinion

We have been appointed as auditor under section 144 of the Charities Act 2011 and report in accordance with the Act and relevant regulations made or having effect thereunder. We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the charity in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of trustees for the financial statements

As explained more fully in the Trustees' Responsibilities Statement set out on page 22, the trustees are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the trustees determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the trustees are responsible for assessing the charity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the trustees either intend to liquidate the charity or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: **www.frc.org.uk/auditorsresponsibilities**. This description forms part of our auditor's report.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which the ISAs (UK) require us to report to you where:

- the trustees' use of the going concern basis of accounting in the preparation of the financial statements
- the trustees have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the charity's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

Other information

The trustees are responsible for the other information. The other information comprises the information included in the Trustees' Annual Report (incorporating the Chair's Introduction). Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters in relation to which the Charities (Accounts and Reports) Regulations 2008 require us to report to you if, in our opinion:

- adequate accounting records have not been kept by the charity, or returns adequate for our audit have not been received from branches not visited by us; or
- · sufficient accounting records have not been kept; or
- · the charity financial statements are not in agreement with the accounting records and returns; or
- · we have not received all the information and explanations we require for our audit.

Use of our Report

This report is made solely to the charity's trustees, as a body, in accordance with section 144 of the Charities Act 2011 and regulations made under section 154 of that Act. Our audit work has been undertaken so that we might state to the charity's trustees those matters we are required to state to them in an Auditor's Report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the charity's trustees as a body for our audit work, for this report, or for the opinions we have formed.

Haysmacintyre LLP

Statutory Auditor 27 June 2019

10 Queen Street Place

London EC4R 1AG

Haysmacintyre LLP is eligible to act as an auditor in terms of section 1212 of the Companies Act 2006

Statement of Financial Activities

For the year ending 31 December 2018

The statement of financial activities incorporates the statement of comprehensive income.

All activities are continuing.

There is no material difference between the net expenditure before investment gains stated above and their historical cost equivalent.

A fund by fund analysis for both the current and prior year is shown in the notes to the accounts.

Notes to the Accounts

The financial statements have been prepared in accordance with the Statement of Recommended Practice: Accounting and Reporting by Charities preparing their financial statements in accordance with the Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland (FRS 102), issued on 16 July 2014, the Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland (FRS 102), the Charities Act 2011 and UK Generally Accepted Practice.

The Representative Body of the Church in Wales is incorporated under Royal Charter and its registered address is 2 Callaghan Square, Cardiff, CF10 5BT.

The Representative Body of the Church in Wales constitutes a public benefit entity as defined by FRS 102.

1. Accounting Policies

The Representative Body of the Church in Wales (the Representative Body) holds all property and investments vested in it in trust for the use of the Archbishop, Bishops, Clergy and Laity of the Church in Wales.

The Representative Body is a registered charity, under the Charities Act 2011. The financial statements have been prepared on a going concern basis and in accordance with the Statement of Recommended Practice 2015 (SORP 2015), and applicable accounting standards in the United Kingdom (FRS 102). The accounts have been prepared in pounds sterling rounded to the nearest thousand.

The principal accounting policies are set out below and have been applied consistently.

a. Basis of Accounting

The financial statements have been prepared in accordance with the historical cost convention as modified by the annual revaluation of stock exchange securities, investment properties, property unit trusts and non-investment properties.

b. Income

Rental income and interest on short term loans and deposits is accrued. Interest and dividends on stock exchange securities and proceeds from the sale of parsonages are credited on the date of receipt.

c. Expenditure

Expenditure is recognised when a liability is incurred. Costs of raising funds are those costs incurred in managing the investments.

d. Investments

Investment Properties:

Investment properties are valued individually at open market value in accordance with the Statement of Asset Valuation Practice and Guidance Notes of the Royal Institution of Chartered Surveyors.

Property Unit Trusts:

Property unit trusts are stated at market values based on net asset value per unit at 31 December 2018.

Stock Exchange Securities:

Stock exchange securities are stated at market values based on bid price at 31 December 2018. Securities denominated in foreign currency are converted into sterling at rates of exchange ruling at the balance sheet date. Investments sold are marked to market value at the date of sale. Consequently, the Statement of Financial Activities treats all movements as changes in the values of the investment portfolio.

e. Non-Investment Properties

The Representative Body has included parsonages, churches and church halls in the Balance Sheet at a valuation using the methodology set out below.

The Representative Body does not value the 6 cathedrals it owns, as cost information is not available and any conventional valuation techniques would lack sufficient reliability due to the unique and historically significant nature of the buildings.

The Representative Body's Property Database confirms that assets include 6 Cathedrals, 1,408 Churches and 1,215 Churchyards at 31 December 2018. These buildings are carefully managed and maintained to preserve them for the future. Works are controlled through the Church's Faculty System which ensures that all maintenance and repair works are properly considered. Many of these assets are also open for public view outside of worship times. Such assets are not marketed but are occasionally sold.

The following asset classes were valued by the in-house Property Department headed by Alex Glanville, FRICS, as at 31 December 2018 and basis of the valuation is set out below:

Parsonages, Bishops' Houses and Sundry Provincial Property which were owned by the Representative Body at 31 December 2007 are stated at the midpoint of the Council Tax band valuation (as at April 2005) as adjusted by house price inflation (Nationwide House Price Index) to 31 December 2018. Such properties acquired after 31 December 2007 are stated at cost less provisions for impairment (where required) as adjusted by house price inflation (Nationwide House Price Index) from the period of acquisition to 31 December 2018.

Church Halls were originally valued using evidence using sales from this type of property. They are now adjusted by the Nationwide House Price Index on an annual basis.

The St Michael's College site is valued at open market value (existing use) based on a professional valuation.

Churches were initially valued based on an assessment of the sales values achieved for such properties over a period of time. This valuation has been adjusted at the transition date using the Nationwide House Price Index.

Glebe is valued on the average price of agricultural land in Wales, based on the RICS - RAU Farmland Market Directory of land prices.

Accounting Policies Continued

f. Depreciation of Other Tangible Assets

Depreciation is calculated on cost so that assets or groups of related assets with a cost in excess of £1,000 are written down to their estimated residual values by equal instalments over their estimated useful lives at the following rates:

Motor vehicles 20% p.a. Office Equipment 331/3% p.a.

Leasehold improvements are depreciated over the life of the lease.

Investment and non-investment properties are shown at market value and not depreciated. In the opinion of the Representative Body, the remaining useful economic life and residual values of these properties is such that depreciation is immaterial.

g. Heritage Assets

A number of former church sites or ruins are owned. They are not saleable assets and are retained accordingly. No value has been included for them in the accounts.

h. Foreign Currency Conversion

Foreign currencies are converted into sterling at the rate of exchange ruling at the date of the balance sheet except for purchases and sales of securities and remittances during the year which were converted at the actual rate prevailing.

i. Designated and Restricted Funds

Designated Funds represent monies made available by the Representative Body out of General Funds for the specific purpose designated when the fund is established. Restricted Funds are those held for specific restricted purposes.

j. Pensions of Clergy and Surviving Spouses and Civil Partners

The Representative Body operates a pension scheme providing defined benefits based on years of service and the allocation to the Clergy Pension Provision is calculated every three years by qualified actuaries and is shown as a charge in the Statement of Financial Activities so as to spread the pension cost over the normal expected service lives of the clergy in such a way that the charge is a substantially level percentage of current and expected future pensionable payroll.

The scheme is accounted for under FRS 102 and an annual actuarial valuation is obtained. Any excess or shortfall between the actuarial liabilities and the Clergy Pension Provision is transferred to or from the Pension Equalisation Fund, a Designated Fund, such that the balance on the Clergy Pension Provision at the balance sheet date is based on the most up to date actuarial information.

k. Staff Retirement Benefit Scheme

A separate defined benefit pension scheme is operated for the staff of the Representative Body. Contributions to the scheme are charged to the Statement of Financial Activities on the basis of spreading the costs over the employees' working lives.

The scheme is accounted for under FRS 102, with the annually calculated notional surplus or deficit on the funding of the Scheme shown in the accounts as a separate fund entitled 'Pension Reserve' which is deducted from General Funds in the Balance Sheet.

Details of the Staff Retirement Benefit Scheme are given in note 11 to the financial statements.

I. Taxation Status

The Representative Body benefits from corporation tax exemptions available to charitable bodies. On the basis that its activities fell within its charitable purposes and its funds are applied for these purposes, no provision for corporation tax is made.

m. Financial Instruments

The charity only has financial assets and financial liabilities of a kind that qualify as basic financial instruments. Basic financial instruments, including debtors and creditors are initially recognised at transaction value and subsequently measured at their settlement value. The recognition criteria for each class of financial instruments is as follows:

Financial instrument Measurement criteria (initial and subsequent)

Cash: Cash held, then on amortised cost

Debtors and loans: Settlement amount or amount advanced then at amortised cost Creditors: Settlement amount after trade discounts then at amortised cost

Bank deposits: Cash amount of deposit then at amortised cost

Investments: Transaction cost then at fair value (market value of quoted investments)

n. Critical Accounting Judgements and Key Sources of Estimation Uncertainty

In the application of the charity's accounting policies, which are described in this note, Trustees are required to make judgements, estimates, assumptions about the carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects the current and future periods.

The most significant areas of judgement relate to the valuation of properties. The policies adopted in respect of the valuation of properties are set out in note 1(e).

The above figures include audit fees of £30,000 (2017: £31,000) in respect of the audit of the Representative Body, and £5,700 (2017: £5,400) in respect of the audit of the Staff Retirement Benefit Scheme.

The total expenditure for Human Resources and Office Services of £1,536,000 includes an accounting adjustment under FRS17 for the Staff Retirement Benefit Scheme of £626,000 (2017: £461,000)

£169,000 (2017:£197,000) of Safeguarding costs are now included separately in Note 4 to more transparently disclose the expenditure.

Basis of Allocation

Support costs have been allocated on the basis of an estimated percentage allocation of staff time spent over each charitable activity.

10 Staff Numbers and Remuneration		Total 2018 £000		Total 2017 £000
Staff Costs				
Salaries	3,173		2,981

*Employee benefits include gross salaries and allowances but do not include empl	oyers' pensio	on costs		

The key management personnel consists of eight staff members, as set out on page 24 of this report. The total amount of their employee benefits was £734,004 (2017: £704,279).

Trustees

No Trustee received any remuneration for the services they provided as a Trustee.

Nineteen (2017: twenty two) Trustees had expenses paid or were reimbursed for expenses in the year. This covered their expenses incurred in performing their duties as Trustees. The payments were for travel, subsistence and accommodation costs and totalled £10,744 (2017: £7,933).

One Trustee received remuneration from the Representative Body in connection with their office. This was The Most Reverend J D E Davies who is an Ex Officio Member of the Representative Body. His remuneration was £48,518 (2017: £3,810) and pension contributions of £18,825 (2017: £1,478). A car was provided for the performance of his duties for which the cash benefit was £6,794 (2017: £597).

11 Staff Defined Benefit Pension Scheme

The Representative Body operates a defined benefit pension scheme arrangement called 'The Representative Body of the Church in Wales Staff Retirement Benefit Scheme' (the Scheme). The Scheme provides benefits based on final salary and length of service on retirement, leaving service or death. The Scheme closed to new members on 31 March 2017.

The Scheme is subject to the Statutory Funding Objective under the Pensions Act 2004. A valuation of the Scheme is carried out every three years to determine whether the Statutory Funding Objective is met. As part of the process the Employer must agree with the trustees of the Scheme the contributions to be paid to address any shortfall against the Statutory Funding Objective and contributions to pay for future accrual of benefits.

A comprehensive actuarial valuation of the Scheme was carried out as at 31 March 2018 and the next valuation of the Scheme is due as at 31 March 2021. The initial results of that valuation have been updated by an independent qualifying actuary to 31 December 2018 allowing for cashflows in and out of the Scheme and changes to the assumptions over the period.

	2018 £000	2017 £000
Amounts recognised in the Balance Sheet		
Fair value of assets	14,131	14,270
Present value of funded obligations	(23,281)	(25,156)
Deficit in Scheme	(9,150)	(10,886)

Changes to demographic assumptions	(1,246)	-
Changes to assumptions	(1,749)	971
Defined benefit obligation at the end of the year	23,281	25,156

Assets

The majority of the assets are invested in the EdenTree Higher Income Fund, with the remainder including some small deferred annuities invested with OneFamily and cash at bank. The actual return on the Scheme's assets (net of expenses) over the year to the review date was a loss of £1,164,000. The assets do not include any investment in the Employer.

Actuarial Assumptions

The principal assumptions used to calculate the Scheme's liabilities include:

	2018	2017
Discount Rate	2.9%	2.6%
Inflation assumption (RPI)	3.6%	3.6%
Limited Price Indexation pension increases (RPI Max 5%)	3.5%	3.5%
Salary increases	3.1%	3.1%
Proportion married at retirement or earlier death	80.0%	80.0%
Post retirement mortality assumption:	95% of the PCA00 tables projections with a lo improvemer

Balance at 31 December	_	180,700	_	192,200

The Clergy Pension Provision was established in accordance with the advice of our actuaries, to meet liabilities for clergy and surviving spouses and civil partners' pensions and gratuities. The actuarial valuation and basis of annual provision is reviewed every three years.

At the date of the last triennial actuarial valuation at 31 December 2016 undertaken by Quantum Advisory, the liability of the Representative Body for past service on the current funding basis was assessed at £187.8 million, which represented 30.9% of total funds at that date. Based upon this valuation, the annual transfer from General Funds has comprised 30.9% of total income (reflecting income on the liability for past service) and 38.8% of total stipends being the contribution for continuing service. A transfer is also made from General Funds comprising 30.9% of net investment gains and losses. Quantum Advisory has reassessed the pension liability as at 31 December 2018, using a discount rate of 2.8% at £180.7 million. The provision has been adjusted to the liabilities and the balance transferred to the Pension Equalisation Fund.

The key financial assumptions used for the full actuarial valuation at 31 December 2016 and the interim valuations at 31 December 2017 and 31 December 2018 are set out below. Changes in the assumptions such as a reduced return on investments can affect the estimated level of provision. The provision accords with the estimate of the actuaries.

The next full actuarial valuation of the Scheme is due to take place at 31 December 2019.

	3	1 December	
	2018	2017	2016

There were no Restricted Funds held during 2018 as no restricted income was received during 2018.

24 Funds Held on Behalf of Others

Special Trusts

The Representative Body is the Trustee of the Church in Wales Common Investment Fund. The unit holders in the Common Investment Fund are individual funds held on behalf of beneficiaries, where the Representative Body is the managing or custodian trustee of the funds. The aggregate value of these special trusts at 31 December 2018 was £49,547,000 (2017: £50,166,000) and was invested in stock exchange securities and the Church in Wales Common Investment Fund. The income on these funds was £1,448,000 (2017: £1,253,000) and was wholly distributed to beneficiaries.

Custodian Trustee

The Representative Body is the custodian trustee of 10 parsonages.

25 Related Party Transactions

Due to the nature of the Representative Body's operations and its membership being drawn from a wide range of clerical and lay members, it is inevitable that transactions will take place with organisations in which a member of the Representative Body may have an interest.

The most significant transactions are as follows:

- The Archbishop and some stipendiary clergy are members of and in receipt of payment from the Representative Body. Payments to bishops and stipendiary clergy are based on the clergy stipends set out in Page 7 of this report.
- The six Diocesan Boards of Finance received a Block Grant totalling £6,158,000 (2017: £6,293,300). They also have
 outstanding loans totalling £2,485,000 (2017: £2,724,00) which have been advanced under the Clergy Retirement Housing
 Loan Scheme.

26 Charitable and Capital Commitments

At 31 December 2018 the Representative Body has committed to pay £6.158 million to the dioceses in respect of the Block Grant in 2019.

The Representative Body has a commitment under an operating lease for the rental of 2 Callaghan Square, Cardiff greater than five years which totals £2.1 million (2017: £2.3 million).
